Professional objective

My first goal is helping my future company for multimedia communication including print media. I will use my knowledge in the field of print processes. For example, I will help company to find print / web synergies.

I can offer help in finding subcontractors, specially in print and prepress field, in order to reduce costs and production time through standardized and innovative tools.

Finally, using my computer and digital knowledge I will manage all your problems from choice to support, for hardware and software.

Special Skills

Print PDF Workflows, Digital imposition, color management, digital proofing systems, digital workflows (CIP3, JDF), cost estimation, MIS.
Web LAMP, XHTML, CSS, Javascript
Systems Mac OS X, Windows, Unix, Linux
